Christian County, Nixa, & Ozark developing a reopen/recover plan

Leaders across Christian County, Nixa, and Ozark are working to create a plan for our return to normalcy. We are in ongoing discussions with area healthcare leaders and with Springfield and Greene County as we draft a plan that will ensure the health and safety of our region AND get our economy back running again as soon as safely possible. We are also taking Federal and State guidance into consideration, as we craft a plan that makes the most sense locally.

Governor Parson's statewide stay-at-home order has been extended through 11:59 p.m. on Sunday May 3rd. Our current local orders are in effect until Friday April 24th at 11:59 p.m. Christian County, Ozark, and Nixa are working with our regional partners to evaluate the possibility of extending or modifying these orders in the appropriate phases so that we may begin getting our economy moving forward.

Stay tuned, we will provide another update about the plan before April 24th. Once we have a plan finalized, we will announce it across our communication channels.

In the meantime, please know that the Springfield/Greene County Health Department's daily press conferences are a great source of official information which represent the best and most current guidance from health departments and local governments across our region.
